1. Reporting entity

Nature of operations

MedMira Inc. (MedMira or the Company) is a biotechnology company headquartered in Canada. The address of the Company's registered office is 155 Chain Lake Drive, Suite 1, Halifax, Nova Scotia, B3S 1B3. OnSite Lab Holdings AG owns the majority of MedMira's shares and is the controlling shareholder. MedMira, through its subsidiaries, is engaged in the business of research, development and manufacturing of rapid diagnostics and technologies. The Company invests in research in order to maintain and expand its position in the global diagnostics market. MedMira's research is focused on specific areas of the broader diagnostics market, namely the rapid, point-of-care, and *in vitro* sectors.

2. Significant accounting policies

a. Basis of presentation

The condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard (IAS) 34, Interim Financial Reporting, using the same basis of measurement and presentation and the same accounting policies as described in notes 2 and 3 to the Company's audited consolidated financial statements as at and for the year ended July 31, 2014, except as noted below. The condensed interim consolidated financial statements should be read in conjunction with those audited consolidated financial statements.

The condensed interim consolidated financial statements include the accounts of the Company and its subsidiaries which are shown below.

	Country of incorporation	**Ownership interest**	
		%	%
		October 31, 2014	**July 31, 2014**
MedMira Inc.	Canada	100	100
MedMira Laboratories Inc.	Canada	100	100
Maple Biosciences Inc.	Canada	100	100
MedMira International AG	Switzerland	100	N/A

The condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiaries. All financial information is presented in Canadian dollars unless explicitly stated.

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on December 24, 2014

b. Going-concern

The condensed interim consolidated financial statements have been prepared on a going-concern basis, which contemplates the realization of assets and liquidation of liabilities during the normal course of operations. However, certain adverse conditions and events cast significant doubt upon the validity of this assumption.

The Company has incurred losses and negative cash flows from operations on a cumulative basis since inception. For the three months ended October 31, 2014, the Company realized a net loss of approximately $1.0 million (October 31, 2013 – net loss of $0.8 million), consisting of a net loss from operations of $0.7 million (October 31, 2014 – net loss $0.6 million), and other non-operating expenses of $0.3 million (October 31, 2014 – loss of $0.3 million). Negative cash flows from operations were approximately $0.7 million (October 31, 2014 – $0.8 million). As at October 31, 2014, the Company had an accumulated deficit of approximately $76.0 million (July 31, 2014 – $75.0 million). In addition to its on-going working capital requirements, the Company must secure sufficient funding for its research and development programs for existing commitments, including its current portion of loans of approximately $3.4 million. These circumstances lend significant doubt as to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness of the use of accounting principles applicable to a going-concern.

Management is pursuing other financing alternatives to fund the Company's operations so it can continue as a going-concern. Management plans to secure the necessary financing through new equity and debt arrangements. Nevertheless, there is no assurance that this initiative will be successful.

The Company is subject to risks associated with early stage companies, including but not limited to, dependence on key individuals, competition from substitute services and larger companies, and the requirement for the continued successful development and marketing of its products and services. The Company's ability to continue as a going-concern is dependent upon its ability to generate positive cash flow from operations and secure additional financing. These financial statements do not reflect the adjustments to carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going-concern assumption not appropriate. These adjustments could be material.

c. Changes in accounting policies

The Company adopted the following new and revised International Financial Reporting Standards (IFRS) effective August 1, 2013:

- IFRS 10, Consolidated Financial Statements, defines the principles of control and establish the basis of determining when and how an entity should be included within a set of consolidated financial statements. The adoption of IFRS 10 had no impact on the Company's accounting or disclosures.
- IFRS 11, Joint Arrangements, provides guidance on the accounting for joint arrangements. The adoption of IFRS 11 had no impact on the Company's accounting or disclosures.
- IFRS 12, Disclosure of Interests in Other Entities, requires disclosures relating to a company's interests in subsidiaries, joint arrangements, associates, and unconsolidated structured entities. The adoption of IFRS 12 had no impact on the Company's disclosures.
- IFRS 13, Fair Value Measurement, defines and provides guidance for measuring fair value and requires disclosures about fair value measurements. The adoption of IFRS 13 had no impact on the Company's accounting or disclosures.

d. Future changes in accounting policies

In November 2009, IFRS 9, Financial Instruments, was issued introducing new requirements for classifying and measuring financial assets. In October 2010, IFRS 9 was reissued, incorporating guidance on accounting for financial liabilities and carrying over requirements from existing IFRS regarding derecognition of financial assets and financial liabilities. In December 2011, IFRS 9 was amended deferring the effective date to annual periods beginning on or after

In Canadian dollars

January 1, 2015, with early application permitted. In November 2013, IFRS 9 was further amended to delay the effective date to a future date to be determined. The amendment also provides relief from restating comparative information and required disclosures in IFRS 7, Financial Instruments.

e. Statement of cash flows

Effective August 1, 2014, the Company changed its method of presentation of its Statement of Cash flows from the direct method to the indirect method. There were no changes to the classification of items between operating, investing and financing activities or to the classification of cash and cash equivalents. The comparative period has been restated to conform to the current period's presentation.

8. Financial instruments

a. Foreign currency risk

Most of the Company's sales are made in foreign currencies. The Company's U.S. dollar foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are shown in the table below.

	31-Oct-14	**31-Jul-14**
	US$	**US$**
Cash and cash equivalents	119,358	20,840
Trade and other receivables	253,990	462,009
Prepaid expense	2,500	3,450
Accounts payable and accrued liabilities	287,198	584,333
Deferred revenue	160,287	186,807

A one cent change in the U.S. dollar exchange rate would result in approximately a $700 (July 31, 2014 – $2,900) impact on the balance sheet and consolidated statement of income.

b. Liquidity risk

Liquidity risk represents the possibility that the Company may not be able to gather sufficient cash resources, when required and under reasonable conditions, to meet its financial obligations. As at October 31, 2014, the Company does not have sufficient cash to meet all of its continual liabilities.

The Company also continues to have an ongoing need for substantial capital resources to research and develop, commercialize and manufacture its products and technologies. The Company is not yet generating a sufficient ongoing revenue stream, nor can it be certain that it will receive significant revenue before additional cash is required. As a result, there can be no guarantee that the Company will have sufficient capital to fund its ongoing operations, develop or commercialize its products without future financing.

The Company's contractual maturities for its financial liabilities are outlined in the table below.

	Total	Less than 1 year	1 to 3 years
	$	$	$
Loans	7,231,480	3,402,533	3,828,947

- A royalty provision was owed to OnSite Lab Holding AG of $260,000 (July 31, 2014 – $260,000).

10. Research and development

The Company receives government grants to offset the cost of developing certain products. These grants are recognized as a credit against the research expense in the period the expense is incurred. There are no unfulfilled conditions regarding the grants.

In addition to grants, the Company receives revenue related to a contract with the U.S. Army. Research expenses related to the U.S. Army contract are recognized in service cost of sales when the revenue is earned. During the three months ended October 31, 2014, $204,234) of the research costs incurred were recognized in service cost of sales (October 31, 2013 – $251,424).
