

RVF vs. Traditional Flow Through

Feature	Traditional Flow-Through	RVF	Benefit
Simplicity of Results	Dot/Dot	Line/Dot	Easy-to-read and differentiate
Stability of Results	Results may change over time	Results are long lasting	Easy to use as reference
Speed of Results	Several minutes to 25 minutes post procedure	Immediate after procedure	Less waiting, stress for patients; test more people in same time
Materials	Multiple buffers; 3 or more	Single buffer, 2 distinct vials	Simple procedure, less confusion
Reconstitution of reagents	Yes	No	Simple procedure, less steps
Patented Technology	N/A	Yes	Continuous advancements
